

From October 20 to 23, 2021, Data for Progress conducted a survey of 1,294 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,294 unless otherwise specified.

[1] Recently, employees at John Deere, Nabisco and Kellogg have voted to go on strike.

Do you approve or disapprove of employees going on strike in support of better wages, benefits, and working conditions?
